DIGITUS® Enjoy connections. Live.

DIGITUS High-speed Powerline Coaxial Ethernet adapter, 200 Mbps

DN-15019-1
EAN 4016032262572

From now on you got two options to establish a network connection: First option is you use the existing powerline, second option is you use the existing coax cable line.
The Powerline Coaxial Ethernet adapter is able to establish a connection, where common adapters are failing. If there are several seperate powerlines in a household, it is impossible to use common powerline adapters.

Not only cable TV users can benefit from the Powerline Coaxial adapter! If you have a legacy CCTV surveillance system, it is no problem to send the signal of the CCTV cameras and the signal of newer IP cameras at the same time.

Logistical Information

Packaging Unit (pcs)	10
Packet weight (kg)	0.6
Box weight in kg	6
Country of origin	Taiwan
